

SAFE & SECURE by HSMT Academy

Taking a proactive approach can prevent emergency situations and save lives

The hotel environment consists of numerous departments that function in a cohesive way in order to maintain the integrity of the hotel. While employers are committed to provide a safe workplace to their employees, all staff members should take a proactive approach when considering the safety and security of the hotel, its guests and co-workers.

from the #1 proven professional threat management in the world

HSMT SAFE & SECURE™ training is a natural extension to the general security awareness program and is designed to provide hotel employees in different departments, the tools and understanding of how to apply safety, security and loss prevention procedures during their routine daily tasks, in an interactive and time efficient manner.

Within 30 minutes of this advanced CBT program, the trainee will develop the skills to demonstrate a safer work environment and by such will increase the hotel guest stay experience.

HSMT SAFE & SECURE™ goes farther by training your employees the advantages of 'Preventive security' and the ability to identify potential dangers, apply initial safety measures and when necessary alert law enforcement agencies.

HSMT SAFE & SECURE™ covers basic risks and threat assessment, principles and practical action guide, ongoing and emergency procedures, techniques and more written by TOP professionals and experts in the field.

- Program Topics**
